

MantlePay

Future-proof your payroll with our embedded payments solution. Our four-part offering cuts payroll processing time significantly and reduces the average cost of processing each payment file, helping administrators deliver a gold-standard, scalable service, without third-party portals, file uploads, or manual exports.

Seamless execution

1. Accurate calculations from Mantle, enabling...
2. RTI calculations added seamlessly in Mantle, leading to...
3. Instant Payments execution from Modulr, followed by...
4. Enhanced reporting

Faster Payments, always

Same-day Faster Payments saves up to 3 days off BACs processes and allows last minute changes. Instant disinvestment means funds are issued quickly, enabling them to remain in high-interest accounts longer.

Savings as you grow

Onboarding schemes - fully automated to free up skilled resources and supporting earlier fee generation. **Executing payment files** - minimal manual steps, reducing risk and saving time. Enables you to grow quickly and onboard more business.

Real-time visibility

Full oversight of payment status and audit trails, stay in control and informed. Live payment status updates improve transparency and boost member satisfaction. Transparent, easy-to-use client portal for support and quick resolution of any pending payments.

Enhanced fraud prevention

Automation eliminates manual file handling and exports to portals, reducing risk and time whilst ensuring compliance. FCA-regulated accounts and full funds coverage provide peace of mind. Finally, advanced 'Confirmation of Payee' checks reduce fraud.

MantlePay streamlines operations by removing manual processes and reducing complexity. As the only platform to unify data, payroll, and payments in one automated system, it offers a truly end-to-end solution.
